Dear Saba & Friends

Walk for Iraq

I should like to thank you all for the fundraising you have contributed to UNICEF's work in Iraq. These funds will be applied to our Emergency work in the areas of water and sanitation, rebuilding schools, the provision of nutrition and immunization.

Following the visit of Luciano Calestini we have decided to have an appeal for Iraq ourselves. The funds we raise will be added to your contributions and the total amount applied to emergency relief.

I am sending Saba a copy of the Powerpoint presentation Luciano did to a group of donors today and you find some statistics on the well being of children. It is not a good picture. But he did say that security is improving and UNICEF now has improved access to deliver services and supplies.

You can be assured that your funds will make a difference in the lives of Iraqi children and extend UNICEF's outreach to more children.

Thank you again for all your wonderful efforts to raise this money.

Sincerely

Dennis McKinlay
Executive Director
